1/02/2010

Dear John Swank:

I have concluded treatment of your client. This is a report of my evaluation and management of this patient, review of medical records, impairment ratings, prognosis, and future medical treatment.

• PATIENT DETAILS •

Patients Name: Jane Doe  
Date of Birth: 01/01/1967  
Gender: Female  
Weight: 130  
Dominant Hand: Right  
Address: 1234 Maine Street  
City, State, Zip: Anytown, CA 12345

• ADDITIONAL DETAILS •

Date of Injury: 09/01/2009  
Medical Specials: \$8,200  
Income Loss: \$3,500  
Property Damage: \$16,000

• PHYSICIANS INVOLVED IN THIS CASE •

Physician #1 Name: Steven Eggleston  
Type of Physician: Chiropractor  
Billed Amount : \$5,700  
All Records Reviewed? yes  
Treating Physician? Yes

Physician #2 Name: Edward Harkins  
Type of Physician: Chiropractor  
Billed Amount : \$1,000  
All Records Reviewed? yes  
Treating Physician? No

Physician #3 Name: William Spock  
Type of Physician: Neurologist  
Billed Amount : \$1,500  
All Records Reviewed? yes  
Treating Physician? No

• INJURIES DIAGNOSED AND TREATED •

**Complaints and symptoms associated with this Accident:**

Clunk Sound with Neck Movements, Neck Pain, Upper Back Pain, Low Back Pain, Bruise / Contusion to Right Shoulder, Range of Motion Problems, Headaches, Sleep Disruption, Anxiety, Depression, I am taking over-the-counter pain meds, Sleepiness, Nausea / Vomiting, Difficulty Concentrating, Sadness or tearful, Pupils Different Sizes, Can't Remember Numbers, Difficulty with Adding / Subtracting, Difficulty Making Decisions, Irritable, Flashbacks to Accident, Impatience,

Talking on the phone

• **DISABILITY** •

Jane was placed on total disability for 30 days. She was advised to not work, rest and follow her treatment plan consisting of chiropractic adjustments and therapies, as well as home exercise, icing and over-the counter pain relieving medications as needed for her pain. Jane has also been advised she should not ride any roller coasters at amusement parks.

I placed this patient on Total disability from 09/07/2009 to 10/07/2009.

• **DEPRESSION/ANXIETY** •

Jane was advised to avoid stressful situations and practice meditation as well as resting whenever she feels anxiety or depression. She is to take walks and continue her exercise program.

INJURY	Depression
Physician who diagnosed it:	Steven Eggleston

Duration of this injury:	32
Treatment prescribed:	Physical Exercise, Meditation, Avoid Stressfull Activities, Anti-Depressents, Anti-Anxiety, Bed Rest

INJURY	Anxiety
Physician who diagnosed it:	Steven Eggleston
Last DATE this injury noted:	2010-01-25
Duration of this injury:	32
Treatment prescribed:	Physical Exercise, Meditation, Avoid Stressfull Activities, Anti-Depressents, Anti-Anxiety, Bed Rest

• **INCOME LOSS** •

The patient has lost \$3,500.00 because of missing work as a result of the accident.

• **FUTURE MEDICAL** •

Future medical treatment was recommended by Medical Doctor William Spock.

Surgical Option: \$75,000. Stabilization surgery is an option to treat this patient's ligament instability at C3-4. Dr. Spock states that this surgery is medically probable in the future to a certainty of 50-75%.

Non-Surgical Option:\$54,000. Conservative, non-surgical treatment currently keeps this patient medically stable at a pain level is currently tolerable. She chooses at this time to continue non-surgical treatments until a point that she can no longer tolerate the pain. Dr. Spock stated that the patient will require 12 treatments a year at a cost of \$125 each. The patient is currently 42 years old and has a life expectancy of 78 years. Therefore, she will need these treatment either for 36 years OR until she has neck surgery.  $36 \text{ years} \times 12 \text{ treatments} \times \$125 = \$54,000$ .

Therefore, this patient's future medical costs are between \$54,000 and \$80,000 in today's dollars.

If you have any further questions about this patient, please contact my office.

Sincerely,

Steven Eggleston
